

## Completion Management, traceability and quality assurance for the Project

IteamPCS is the result of more than twelve years of experience in projects within different sectors such as **Shipbuilding, Oil&Gas, Offshore and Energy**. Its versatility allows satisfying the customer's requirements providing them with a complete and accurate control all over the Project.

**IteamPCS monitors from the Factory Acceptance Test (FAT) to the Construction and Commissioning, dividing the installation into systems and sub-systems, preparing and executing project tasks on a daily basis, ensuring traceability and real-time status of the project verification and managing required documents and manuals.**

It includes the modules of **Expediting, Mechanical Completion, Pre-commissioning and Commissioning**, as well as the possibility of transversal work with the **Conservation and Maintenance** module.

In addition, thanks to the **Cloud connectivity ITeamPCS offers information in real time and guarantees the follow-up of all the project**. Clients have a complete access and continued data exchange anywhere in the world.

Pine Equipos Eléctricos S.A.

# **i**team<sup>PCS</sup>

***Making your project easier***

- ✓ Includes all the Project's phases
- ✓ Modules and phases are interconnected
- ✓ User friendly, reliable and configurable
- ✓ Technical support provided
- ✓ Achieve quality and satisfaction requirements

#### > Application Areas

ITeamPCS can be applied in most industrial Projects during the Construction and Commissioning phases. Pine Equipos Eléctricos has extensive experience in software implementation within a wide range of industries such as, **Oil&Gas, Offshore, Energy, and Shipbuilding.**

#### > Technical Team

Our technical and experienced team is qualified to initiate and support any Project, either in execution or at documentary management stage. It includes **integration of drawings, datasheet, certificates, manuals, vendor's drawings, etc.**

Our team is highly trained in the software methodology and application guarantying the success of the Project and the satisfaction of our Client.

Furthermore, our experimented team continues improving the IteamPCS by including new technologies that make this tool **user friendly, reliable, fast, efficient and professional.**

IteamPCS is a reliable software adaptable to the necessities of each Project and Client, keeping control all over the planning and progress of the installation. This tool minimizes paper work, time to operations, costs and failures and maximizes safety on site and technical integrity.

#### > Completion Management

ITeamPCS manages the Punch lists during each phase of the Project in order to achieve the maximum quality for the Client.

After milestone completion and turnover/acceptance, IteamPCS can be used by the final client for the Maintenance Engineering during the Project's operation.

**TIME AND  
COST  
SAVING**

#### > Access on real time

IteamPCS facilitates our client to easily access the information, during all execution phases on real time, monitor the follow up, **ensure quality requirements and save time minimizing costs.**

Our system allows working all around the world, even if no internet connection is available. Clients can connect anytime via Web to our Cloud.
