

CODE OF CONDUCT

Ingeteam

CHAIRWOMAN'S LETTER

1 March 2019

Since it was first published in 2012, the Ingeteam Group Code of Conduct has been one of the cornerstones of the Group's business relationships. We have now decided to update this Code in order to better and more effectively reflect our values and business conduct guidelines.

On behalf of the Board of Directors, we would also like to take this opportunity to reaffirm our commitment to business relationships that are ethical, complete and honest. Relationships that are grounded on trust with our customers, suppliers, public administrations, other related third parties and, in short, with the communities in the different territories in which we are present. We would also like to strengthen our commitment to compliance with all applicable legislation, internal rules and standards and the recommendations of the sectors in which we operate.

The main purpose of our Code of Conduct is to specify the standards of conduct to be observed by company personnel with regard to:

- The values and principles in the Ingeteam Group's business relationships.
- Conduct that will not be tolerated, that is inappropriate and may even be a criminal offence in business relationships.
- Remind company personnel of the obligation to use the Whistleblower Channel to report any conduct that goes against this Code.

As the former Group Chairman mentioned, *we need to remember that we must always serve as a model of good conduct and act according to the criteria of respect, dignity and fairness*. With this aim in mind, I am presenting you with this updated version of the Code of Conduct.

Teresa Madariaga Zubimendi
Chairwoman of Ingeteam Group

The observance of the conduct and behavior guidelines set out in this Code is mandatory for all Ingeteam Group employees, regardless of their company position or geographical location. The Code is applicable to all the Groups' companies and subsidiaries in which it holds a decisive influence over management control.

No employee, regardless of his/her level or position, may ask another employee to go against the provisions of this Code of Conduct, neither can any conduct be justified on the grounds of an order from a

higher level or a lack of knowledge of the Code of Conduct, Group policies or the legislation in force.

On numerous occasions, the Ingeteam Group's operations are subject to the laws of a number of countries and jurisdictions. All employees are expected to comply with the laws, rules and regulations that are applicable in each particular case. When in doubt, the department of Legal Services, Internal Operations or the Ethics and Compliance Committee should be consulted.

1.4 WORKERS

The Ingeteam Group workers must not violate the law that is applicable in their place of work and must observe the internationally accepted ethical practices, in accordance with the Fundamental Rights and Public Liberties set out in the Universal Declaration of Human Rights.

Likewise, workers shall act in an ethical and socially acceptable manner in all their actions, avoiding any type of conduct which, while not violating the law, could be damaging to the company.

1.5 BOARD OF DIRECTORS AND MANAGEMENT

In addition to the obligations and rights of any other worker, those persons holding positions of responsibility on the Board of Directors or Management must be suitable role models. They must therefore:

- Ensure that all workers under their supervision understand their responsibilities under this Code of Conduct and other Ingeteam policies.

- Never encourage or give orders to achieve business results, or results of any other nature, that benefit the company yet violate the Code of Conduct or applicable legislation.

1.6 ETHICS AND COMPLIANCE COMMITTEE

The Ethics and Compliance Committee (hereinafter the Compliance Committee) is the body within the Ingeteam Group that ensures that the Code of Conduct and ethical culture are disseminated within the Group and that employees are familiar with the Code and comply with it.

This Committee is appointed by, and answerable to the Ingeteam Group Board of Directors, to which it reports on a regular basis. The Board of Directors shall appoint the Chairman and Secretary from among its members, as considered appropriate.

The Board of Directors has given this committee autonomous powers of initiative and supervision within the Ingeteam Group, in order to ensure com-

pliance with the applicable regulations, particularly in criminal matters, and also with the Code of Conduct by all Group personnel, encompassing the operation of the companies, Business Units and Production Units, its employees.

The Committee also manages the Whistleblowing Channel and ensures the complete confidentiality of any possible reports on hypothetical violations of the Code of Conduct and applicable regulations. The investigation into these wrongdoings is made through an impartial procedure adapted to the circumstances of each particular case.

The Committee has its own rules, in which its duties and responsibilities are defined.

1.7 SUPPLIERS AND RELATED THIRD PARTIES

The Ingeteam Group expects its suppliers to be committed to acting with business integrity and honesty. The specific scope of application is defined in the Supplier Code of Conduct, which supplements this Code of Conduct and which must be accepted by the Suppliers.

This Code is also extended to related third parties such as representatives, subcontractors, sales agents, business partners, associated persons, consultants, external distributors, trainees, interns, and collaborators. The Ingeteam Group will take these matters into account in the selection of, and relationships with suppliers.

All measures available shall be implemented in order to pursue and rebuke any action or circumstance identified. To this end, the necessary prevention and response procedures and protocols have been established.

It is forbidden to use discriminatory language in any type of corporate communication, internal or external, and inclusive language shall be encouraged within the organization.

2.4 HEALTH, SAFETY AND THE ENVIRONMENT

The Ingeteam Group shall ensure that its employees perform their work in safe, healthy and environmentally-friendly workplaces. It undertakes to implement the policies, procedures and means required to minimize the associated risks, for its own personnel and also for third parties. To this end, it shall establish the corresponding policies on occupational safety, health and the environment and shall adopt the necessary preventive measures to comply with the provisions of the applicable legislation as well as any other regulatory provision that may come into effect in the future.

All Ingeteam employees must be familiar with and comply with the rules on occupational health and safety and the environment, ensuring their own

safety and that of anyone who may be affected by their activities. To this end, all the necessary resources and means shall be made available, in addition to compulsory training for employees, to ensure that they can work safely in a healthy, environmentally-friendly atmosphere.

With regard to these matters, employees are obliged to inform their superior or the person responsible for health and safety, of any malfunction, incident or risk observed.

The measures taken by the Ingeteam Group to prevent corruption with customers, suppliers, public institutions and political organizations are detailed later on.

2.6 CONFLICT OF INTEREST

While working for Ingeteam, employees must act in the best interest of the company. A conflict of interest arises whenever an employee's personal relationships and activities interfere or appear to interfere with his/her ability to act in the best interest of Ingeteam.

- The performance by the employee, his/her relatives or any other person related to the employee, whether directly or indirectly, whether alone or through some company or institution, of activities that involve or could involve the exchange of

goods and/or services with Ingeteam, whatever the system of remuneration agreed.

At the time of recruitment and during the course of their work, all employees must communicate any circumstance that could involve a conflict between their own interest and that of Ingeteam. This obligation to communicate a conflict of interest also covers any knowledge or suspicion of a conflict of interest involving another employee.

In this respect, should a personal conflict of interest arise that could compromise the necessary objectivity or professionalism of their position, employees are required to inform their direct supervisor in writing, with a copy to the Ethics and Compliance Committee, so that appropriate measures may be taken to the mutual benefit of Ingeteam and the persons concerned and, where applicable, either authorize or prohibit the potential conflict of interest situation.

With regard to the section above, Ingeteam Group employees must not render professional services or activities to other entities or enterprises that have a similar activity to, or operate in the same sectors as Ingeteam, whether or not this is paid.

Employees may perform activities other than those coming under their contractual relations with Ingeteam, when such activities do not and will not represent a conflict of interest, a loss of the efficiency

required in the performance of their duties inherent in their work at the company, are not incompatible and are not performed during the working day.

In other words, the company may access the contents of electric devices and the work email box within the framework of improper conduct or a serious violation of the Code of Conduct or applicable legislation.

In any case, employees are forbidden to access websites with a content that goes against this Code of Conduct, in addition to activities that are illegal, unethical or not socially acceptable.

The work email must be used with care given that it involves acting on behalf of Ingeteam and, in particular, when providing information or documentation that could result in contractual or legal liabilities.

2.8.5 CONDUCT ON THE INTERNET, SOCIAL MEDIA AND FORUMS

The participation of Ingeteam Group employees on the Internet, social media and professional forums shall always be made in such a way that it is clear that this is at a personal level and is not the opinion of the Ingeteam Group. Information, opinions or statements on professional matters shall always be true and non-confidential.

Particular care should be taken when mentioning an employment relationship with Ingeteam. The aspects included in this Code are applicable, particularly

2.8.8 THEFT AND MISAPPROPRIATION

The assets and goods provided by Ingeteam in order to enable its employees to perform their work efficiently, are not for personal use.

The Ingeteam Group understands theft or misappropriation to be the unauthorized removal of a product, money, equipment or information pertaining to the company, or theft through embezzlement, misleading information or documentation on work-

Ingeteam Group employees shall use the image, name, brands and logos of the Ingeteam Group in order to correctly perform their work at the company, being aware of the impact that this could have on the corporate and reputational image. The Ingeteam Group allows its employees to use material with the Ingeteam logo in personal activities outside working hours. However the points set out in the

Code are applicable, requiring the activities to be legal, ethical and socially acceptable.

In any case, Ingeteam's employees must not use workwear for activities that could cause damage to it, and then subsequently wear the damaged items during their work at the company.

In any case, such Ingeteam Group employees shall be obliged to respect and safeguard the personal privacy of all those individuals whose data are accessed while performing their duties within the Ingeteam Group, maintaining strict confidentiality with regard to the said data. The above shall be applicable to all personal data, including identification

data, financial, medical or data of any other nature and which can in some way identify the holder and, therefore, affects his/her personal privacy.

To this end, employees shall refrain from using such content

outside the company and shall return all material containing such data whenever required to do so.

Likewise, employees shall respect the intellectual and industrial property rights of third parties and enterprises that are not related to Ingeteam. Specifically, the use of any content that is third-party property shall require the prior authorization of the latter.

2.12 RECORDING, SAFE-KEEPING AND REPORTING FINANCIAL AND NON-FINANCIAL INFORMATION IN THE ORGANISATION

Employees must endeavor to be accurate and truthful when preparing internal information or for a third party. Employees are also reminded that any misstatement or inaccurate recording of transactions, activities or any other operation, as well as the creation of misleading documentation or omitting to provide the true documentation, are also serious violations of the Code of Conduct.

Ingeteam's employees must retain or dispose of Ingeteam's records based on the established retention policies and on the applicable legislation in

force. Corporate Legal Services may issue instructions with regard to the retention of records in the event of an actual or potential lawsuit or investigation conducted by some public administration or body.

- Ingeteam employees must not offer, promise, grant, request or accept gifts, handouts, considerations, rewards to/from a natural or legal person with whom Ingeteam has any type of relationship, or to unrelated third parties.
- Complementary gifts and items offered customers are only acceptable if these are advertising or promotional items, and provided that this cannot be interpreted as something that will influence the decisions made by the recipient, and always in line with the applicable legislation and local practices.
- Expenses relating to hospitality, business courtesies or invitations to events are permitted provided that these do not exceed limits considered to be reasonable in the local social practices and are permitted by the applicable legislation.
- It is prohibited to defray a customer's travelling expenses, with regard to business. Exceptionally, such expenses may only be defrayed following an express request to the corresponding director of the Ethics and Compliance Committee, who should only authorize this once it has been checked that there is no risk of corruption.

Should any doubts arise as to the interpretation of these points, then a criterion of prudence shall be adopted, declining any gift or invitation. In any case, employees may check with their immediate superior or with the Compliance Committee.

3.3 HONEST CONDUCT AND LONG-TERM CUSTOMER LOYALTY

Employees must not offer information or act in any way that could directly or indirectly deceive customers or any third party in order to get them to make a transaction or to order a product which they would not otherwise have done, if they had been aware of the real characteristics.

- Any invitation, gift, offering or favor which, due to its frequency, characteristics or circumstances, could be interpreted as an act directed at influencing the objectivity of the recipient, shall be refused and reported to his/her direct supervisor and to the Ethics and Compliance Committee.
- Any gift received and which is contrary to the above, including gifts received due to social and local practices (such as Christmas presents) and

which it is not reasonably possible to return, shall be given to the Corporate Marketing Department or, failing that, to the Human Resources Department. After issuing the appropriate receipt and including it in the Ingeteam gift inventory, it shall be used for social interest purposes as established in the Corporate Social Responsibility policy.

- With regard to business courtesies and invitations to events by suppliers, these are permitted provided that they are only occasional and do not exceed limits considered to be reasonable in the local social practices and are permitted by the applicable legislation. In the exceptional case that an amount is considered to be excessive or unreasonable, then the hierarchical superior or

supervisor and the Ethics and Compliance Committee should be informed in order to give their permission.

- Ingeteam Group employees are forbidden to accept trips paid by suppliers or third parties, exceptionally these may only be accepted following an express request to the corresponding director of the Ethics and Compliance Committee, who should only authorize this once it has been checked that there is no risk of corruption.

Should any doubts arise as to the interpretation of these points, then a criterion of prudence shall be adopted, declining any gift or invitation, or checking with the hierarchical superior where applicable, or the Compliance Committee.

4.3 HONEST CONDUCT AND LONG-TERM SUPPLIER LOYALTY

Employees must not offer information or act in a way that could be misleading or directly or indirectly deceive the Ingeteam Group suppliers or any third party in order to get them to make a trans-
